5課 / Lesson 5/ Leksyon 5

ようご と ぶん / Words and phrases / Mga Salita

ようご	Words	Mga salita
なる	to become	maging
しき	math formula / equation	math formula / equation
けいさん	calculation	kalkulasyon
ず	diagram / chart	diagram
つかう	to use	gamitin
こたえ	answer	sagot

ぶん	Phrases	Grupo ng mga salita
しきを かいて けいさんしましょう。	Write a math formula and calculate.	Isulat ang math formula at kalkulahin ito.
ずを つかって こたえを たしかめましょう。	Use a diagram to check the answer.	Suriin ang sagot sa gamit ng diagram.

5課/Lesson 5/Leksyon 5

【内容】 Contents　Mga Nilalaman

①同分母分数の足し算場面理解
②同分母分数の足し算の計算方法
①To understand the case where addition of fractions with the same denominators is applied.
②Method of addition of fractions with the same denominators.
①Pag-unawa sa addition ng fraction na may parehong denominator.
②Paraan ng addition ng fraction na may parehong denominator.

【日本語の表現】 Math Expressions in Japanese　Mga Math Expressions sa Japanese

①「～と～を合わせると、～。」→1/5ｍと2/5ｍを合わせると、
②「何（数詞）の～になるか。」→何ｍのテープになりますか。
①「～TO～O AWASERUTO、～.」(If you combine ～ and ～,) → If you combine 1/5m and 2/5m,
②「NAN（SUUSHI）NO～NI NARUKA.」 (How many (numeral) of ～ will it be?)　→ How many meters of tape will it be?
①「～TO～O AWASERUTO、～.」(Kapag ～ at ～ ay pinagsama,) → Kapag ang 1/5m at 2/5m ay pinagsama,
②「NAN（SUUSHI）NO～NI NARUKA.」(Ilang (numeral) na ～ magiging?)　→ Magiging ilang metrong tape ito?

5 ぶんすうの たしざん ①

Bunsuu no tashizan

分数の足し算場面と計算の仕方を知る。

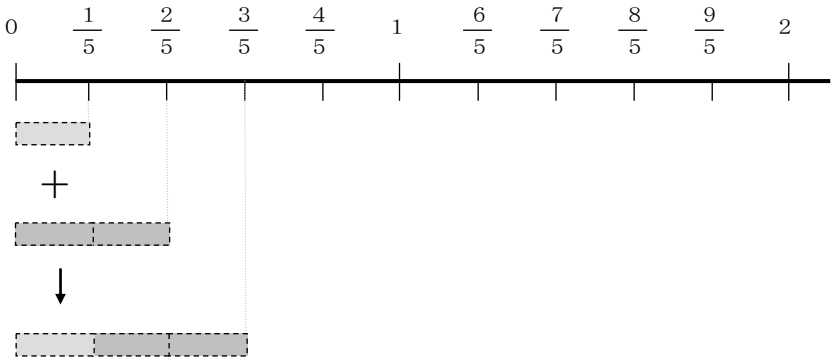
1

$\frac{1}{5}$ mの テープと $\frac{2}{5}$ mの テープを あわせると、

no teepu to　no teepu o　awaseru to

なんmの テープに なりますか。

nan meetoru no teepu ni narimasuka



$\frac{1}{5}$ と $\frac{2}{5}$ を あわせると、 $\frac{3}{5}$ に なります。

to　o　awaseru　to　ni　narimasu

⇧

これを しきで かくと こうなります。

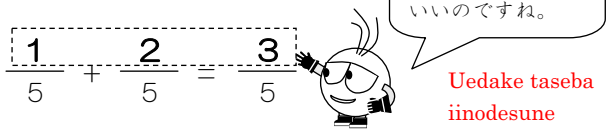
Kore o　shiki de　kaku to　⇩koo narimasu

$\frac{1}{5} + \frac{2}{5} = \frac{3}{5}$

ichi tasu ni wa san

1 + 2 = 3
うえだけ たせば
いいのですね。

Uedake taseba
iinodesune



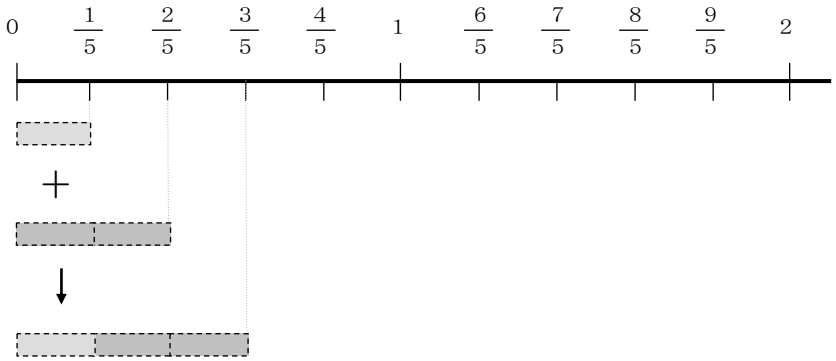
5 ぶんすうの たしざん ①

分数の足し算場面と計算の仕方を知る。

1

How many meters of tape can be made when you combine 1/5m of tape and 2/5m of tape?

Ilang metrong tape ang magagawa kung ang 1/5m na tape at 2/5m na tape ay pinagsama?



When 1/5 and 2/5 are combined, you will get 3/5.

Kapag ang 1/5 ay pinagsama sa 2/5, ang makukuha ay 3/5.

⇧

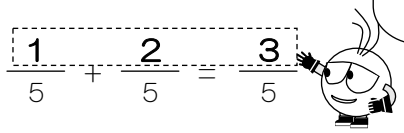
This can be written like this in a math formula.

Naisusulat ito katulad nito sa math formula.

⇩

$\frac{1}{5} + \frac{2}{5} = \frac{3}{5}$

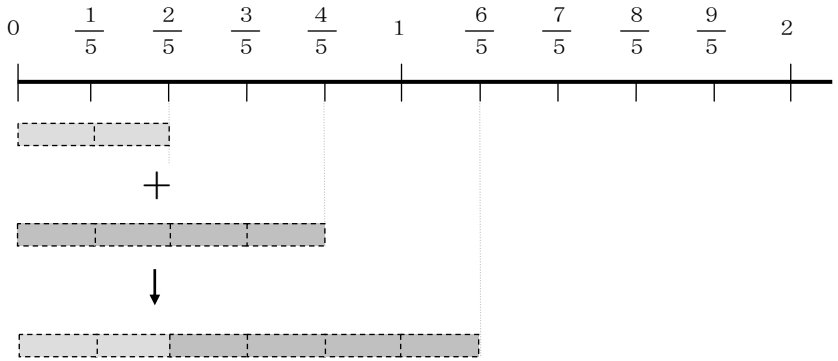
1 + 2 = 3
You only need to add the numbers above.
Pagdaragdag ng mga bilang sa taas lamang ay dapat gawin.



2

$\frac{2}{5}$ mの テープと $\frac{4}{5}$ mの テープを あわせると、

なんmの テープに なりますか。

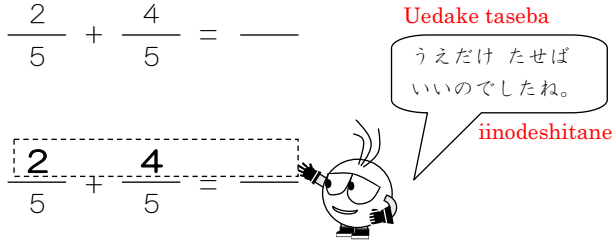


$\frac{2}{5}$ と $\frac{4}{5}$ を あわせると、 $\frac{6}{5}$ に なります。

⇧
これを しきで かくと どうなりますか。

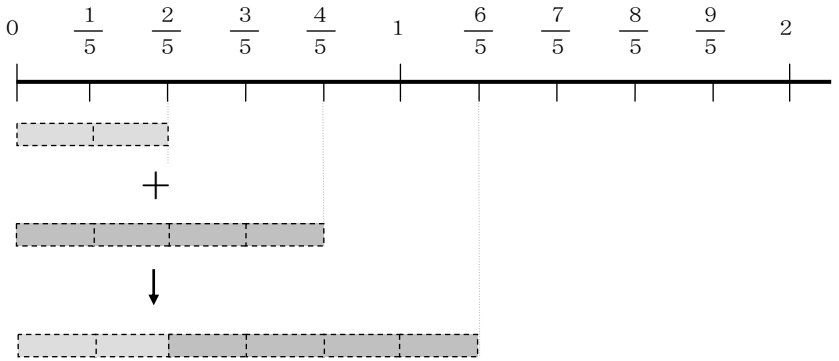
Kore o shiki de kaku to doonarimasuka

$\frac{2}{5} + \frac{4}{5} = \frac{\quad}{\quad}$



2

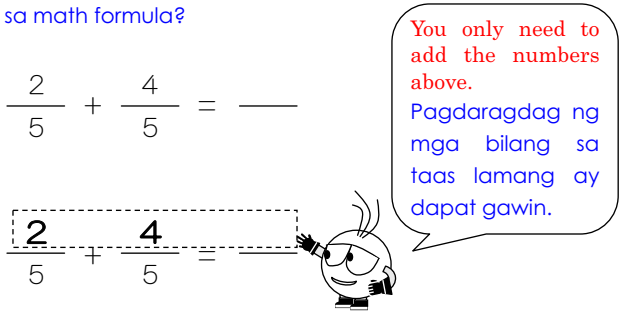
How many meters of tape can be made when you combine 2/5m of tape and 4/5m of tape?
Ilang metrong tape ang magagawa kung ang 2/5m na tape at 4/5m na tape ay pinagsama?



When 2/5 and 4/5 are combined, you will get 6/5.
Kapag ang 2/5 ay pinagsama sa 4/5, ang makukuha ay 6/5.

⇧
How can this be written in a math formula?
Paano ito maisusulat sa math formula?

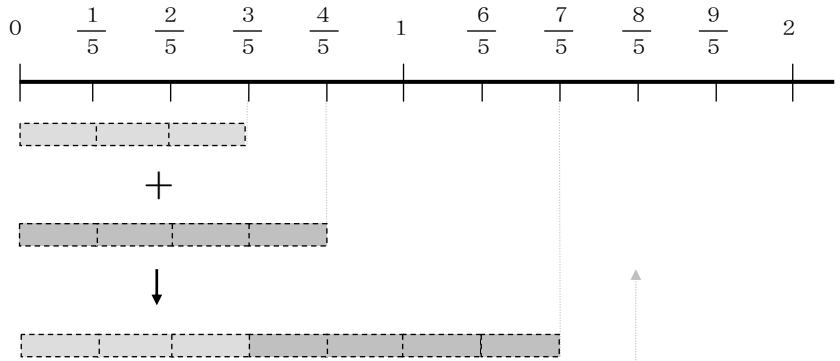
$\frac{2}{5} + \frac{4}{5} = \frac{\quad}{\quad}$



3

$\frac{3}{5}$ mの テープと $\frac{4}{5}$ mの テープを あわせると、

なんmの テープに なりますか。



①しきで かくと どうなりますか。

Shiki de kaku to doonarimasuka

＿＿ ＋ ＿＿ ＝ ＿＿

② $\frac{4}{5}$ と $\frac{4}{5}$ を たすと いくつに なりますか。

to o tasu to ikutsu ni narimasuka

（ア）しきを かいて けいさんしましょう。

Shiki o kaite keesan shimashoo

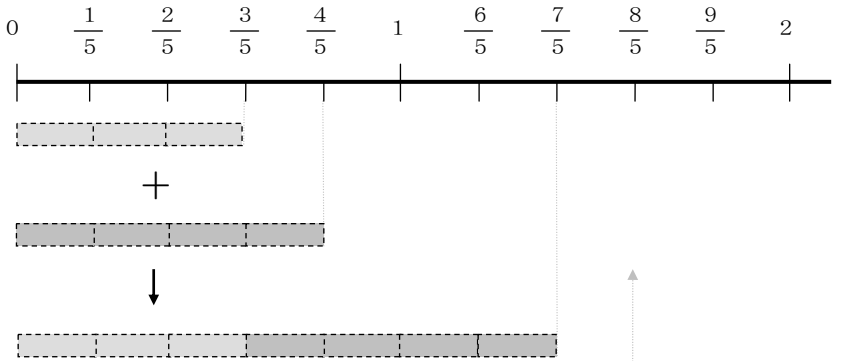
（イ）ずを つかって こたえを たしかめましょう。

Zu o tasukatte kotae o tashikamemashoo

3

How many meters of tape can be made when you combine 3/5m of tape and 4/5m of tape?

Ilang metrong tape ang magagawa kung ang 3/5m na tape at 4/5m na tape ay pinagsama?



① How can this be written in a math formula?

Paano ito maisusulat sa math formula?

＿＿ ＋ ＿＿ ＝ ＿＿

② How many can you get when you add 4/5 and 4/5?

Ilan ang makukuha kapag pinagsama ang 4/5 at 4/5?

（ア） Write a math formula and calculate.

Isulat ang math formula at kalkulahin ito.

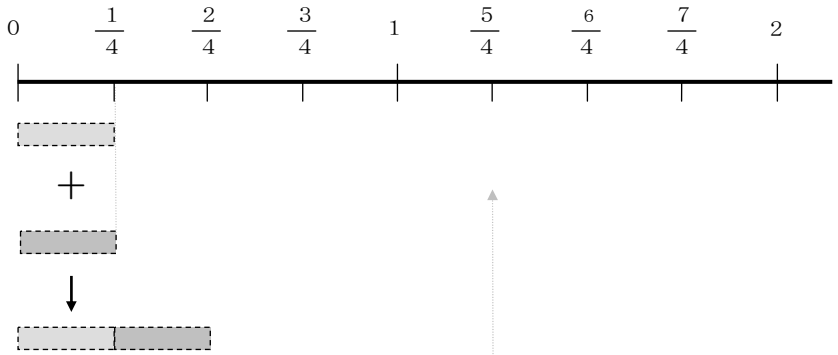
（イ） Use the diagram to check the answer.

Suriin ang sagot sa paggamit ng diagram.

4

$\frac{1}{4}$ mの テープと $\frac{1}{4}$ mの テープを あわせると、

なんmの テープに なりますか。



しきを かきましょう。

Shiki o kakimashoo.

① $\frac{2}{4}$ mの テープと $\frac{3}{4}$ mの テープを あわせると、

なんmの テープに なりますか。

② $\frac{3}{4}$ mの テープと $\frac{3}{4}$ mの テープを あわせると、

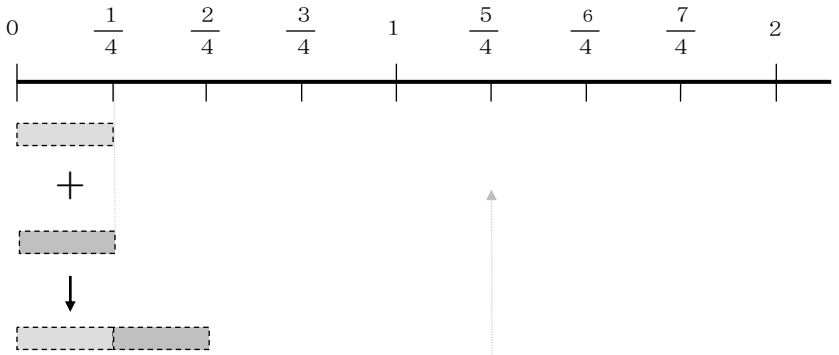
なんmの テープに なりますか。

分数の足し算の理解を深める③

4

How many meters of tape can be made when you combine 1/4m of tape and 1/4m of tape?

Ilang metrong tape ang magagawa kung ang 1/4m na tape at 1/4m na tape ay pinagsama?



Write a math formula.

Isulat ang math formula.

① How many meters of tape can be made when you combine 2/4m of tape and 3/4m of tape?

Ilang metrong tape ang magagawa kung ang 2/4m na tape at 3/4m na tape ay pinagsama?

② How many meters of tape can be made when you combine 3/4m of tape and 3/4m of tape?

Ilang metrong tape ang magagawa kung ang 3/4m na tape at 3/4m na tape ay pinagsama?
